Workshop: 1. April – 6. June 2009

Vernissage: 12. June 2009

Ausstellung: 12. – 28. June 2009

Make inner visions become visible...let the moved and moving inner landscapes be expressed...look closer and recognize...interpret / describe / portray / express...give room...name it!!!!

Techniques: We work on paper, cardboard and canvas – with colors, coal and other materials and thereby try to feel / understand our inner nature. We take our time to look closer and try to grasp the developed picture / painting / art.
